

College of  
Registered Nurses  
of Manitoba

## Quality Practice Consultant

You are responsible for supporting registered nurses and employers in the provision of safe, competent, quality nursing care through the application of relevant research and regulatory excellence in practice consultation, practice direction and standards development and implementation, education program review, continuing competence and clear articulation of scope of practice for registered nurses.

### Scope of this position:

- Supports registered nurses in all areas of practice by providing education and consultation services to individuals and groups.
- Implementing the continuing competence program process will be the primary responsibility of this position
- Develops and facilitates practice audits in accordance with all requirements of legislation, regulation and College policies.
- Develops and evaluates the continuing competency program (CCP).
- Facilitates an understanding of registered nursing practice by developing informational resources for registered nurses, student nurses, the public, employers, and other health care providers.
- Delivers presentations to registered nurses and public; facilitates and manages large group discussions and/or consultations.
- Takes the lead on initiatives arising from the work of the College.
- Assists in policy development.
- Contributes to provincial, national and international initiatives related to registered nursing practice.

### Education and experience:

- Master's Degree in nursing or related discipline.
- Eligible for RN registration in Manitoba.
- Minimum of seven years administrative and clinical experience in a variety of related settings, such as direct practice, education, administration, research.
- The ability to independently initiate and provide leadership in facilitation processes and conflict resolution techniques to manage difficult situations.
- Experience in managing professional practice issues.
- Excellent critical thinking and analytical skills.
- Exceptional verbal and written communication skills.
- Proficiency in using Microsoft Office software (Outlook, Word, Excel, PowerPoint).
- Experience with Lean operating principles.

This position requires excellent organizational skills, flexibility and attention to detail, willingness and demonstrated ability to work as a member of a team, motivation to be self-directed, an ethical regard for confidentiality of information and professional presence.
